

Advanced Programming Lab Exercise 04

Execution times without overloaded operators

Following table shows average execution time in ms of each function. Average was calculated from 100,000 executions.

	g++	g++ -O2
costeMem1	0.050205	0.0306529
costeMem2	0.351577	0.319546
costeMem3	2.3674	0.287886
costeMem4	2.04316	0.606018

Execution times with overloaded operators
